

SECRET

31 January 1947

TO: SC, AMZON (for MUNICH)
FROM: SC, PHM
SUBJECT: REZCHIKOV, Yuri; GULL

Reference is made to MSC-400 and the comment made by AB-102 that once more data is available on Subject, the possibility, if any, of his defection might be considered. This is the third report submitted so far on Subject by GULL. We cannot conceive of even the slightest justification for thinking of defection in the case of a run-of-the-mill former White Russian who has considered it expedient to join the Soviet side. There is no indication of any affiliation or experience with intelligence services and we are certainly not in the business of trying to influence the political or other convictions of Soviet army personnel.

It seems to us that much too much time has been spent already on reporting on this man and we are more than ever convinced of the fact that GULL has contributed absolutely nothing to our knowledge of the KIS and its techniques, nor has he been successful in reporting on Soviet penetration of the French I.S., which was his original assignment. After having carefully gone over everything he has sent in and after having seen several of his Berlin reports, we believe that the only wise thing to do is to terminate our contact with him as soon as possible.
